

# Confusion matrix of concepts attributed to the statistic & parameter

Among responses with at least partial credit for sample and population

Attributed to parameter

variable	2	1	2					2		1					2	
value	1	1									1	2				
units															1	
study design detail			1	1				1		1			1	3		
single obs									1						1	
signif. threshold				1												
sample size	1															
RQ	1					1										
null value								1								
ill-defined			2	1				1								
conclusion	1				1										1	
CI/HT													1	1		
statistic	1					2									1	
population					3										1	
sample															1	
(Not Identified)	4	4	23				2		1			1			1	
(Partial Cr.)	4	8	1			1						1		1	1	
(Full Credit)	53	2			1				1						1	
	(Full Credit)	(Partial Cr.)	(Not Identified)	sample	parameter	CI/HT	conclusion	ill-defined	null value	RQ	single obs	std. statistic	study design detail	units	value	variable
